

MODULAR KITCHENS

STOLKAR
SINCE 1989

TREND LINE

MODULAR SOLUTIONS IN YOUR KITCHEN

.....

Modular kitchens from the **Trend Line collection** are a perfect alternative to custom-made kitchen furniture. You can choose from as many as **12 front designs** created by experienced designers and available in the most fashionable colors, so you can be sure that your kitchen will never go out of fashion and that its use will be pure pleasure.

Modular - what is it?

You can build a kitchen based on **nearly 90 available upper and lower cabinet shapes**. If for some reason you need to modify the available cabinet modules, you have this option. **We can modify each cabinet especially for you** (cabinets every 10mm, drawers every 50mm). All this to create a kitchen exactly what you need.

Durability at a reasonable price

Based on our **34 years of experience**, we know perfectly well how to achieve a compromise that is impossible for many. The Trend Line collection proves that **good quality can go hand in hand with a good price**.

Ready-made solution

Furniture from the Trend Line collection is suitable for **self-assembly**. Thanks to the clear user manual, anyone can assemble kitchen furniture. Thanks to this, **you can easily create a unique interior and save money**.

What you can't see

Quiet closing in front and drawer hinges and 3/4 drawer heights is standard for us. It is very important to be able to use kitchen furniture without any restrictions

You can be sure that you will not run out of space. The unique depth of 524 mm in the case of lower cabinets will help you conveniently organize the space.

Additionally, thanks to height-adjustable legs (10 mm), **you can adjust the furniture to your individual needs** to make working at the kitchen counter a pure pleasure.

Extras

You can equip your kitchen from the Trend Line collection in the way you choose. A wide selection of cargo baskets, drawer inserts and waste bins will allow you to tailor the contents of cabinets and drawers to your individual needs. **Our designers will be happy to offer you interesting solutions to make your kitchen as functional as possible.**

Lighting

Lighting is one of the key elements in kitchen design. Spot lamps, LED ceiling lamps, LED strips hidden in the housing in the color of the body - depending on the style of the kitchen and your individual needs.

Remember, **lighting affects not only the functionality of your kitchen**, but also the atmosphere and aesthetics of the entire interior. It is worth spending a little time choosing the right lighting to create a practical, comfortable and pleasant kitchen space.

LIST OF CABINETS

25

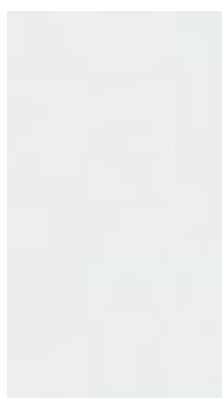

IRMA

Irma is a proposition for people who prefer **classics with a modern twist**. Milled fronts combine traditional design with elegant minimalism. **The fronts are made of 19 mm MDF board covered with PVC foil with a matte finish.** The coffee color deserves special attention, as it is a cozy and subdued color. Beautiful, deeply milled fronts will work well in any interior, adding character to it.

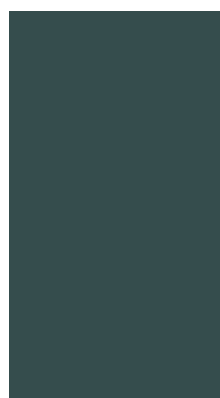

WHITE SEMI MATTE

LIGHT GREY MATTE

COFFEE MATTE

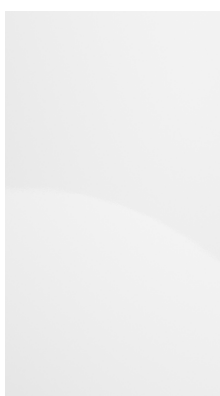

GREEN MATTE

OSCAR

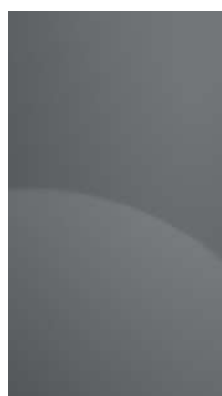

Oscar is a kitchen with **fronts made of 18mm high-gloss acrylic board**. Thanks to its universality, it offers enormous arrangement possibilities, creating a beautiful and stylish interior. Timeless white, noble anthracite or deep cashmere will look great alone or in combination with other decors. **Glossy kitchen furniture adds elegance and modernity**, reflecting light and giving the room a unique glow.

WHITE GLOSS

CASHMERE GLOSS

ANTHRACITE GLOSS

DENIS

.....

Denis is a proposition for those who value **aesthetic minimalism** combined with everyday comfort. The universal nature of the fronts will perfectly match the style of your interior. The simple form of the front guarantees freedom during arrangement. **The fronts are made of 19mm thick foiled MDF board and are available in 9 colors.** You can easily find exactly what you need to emphasize the unique character of your interior.

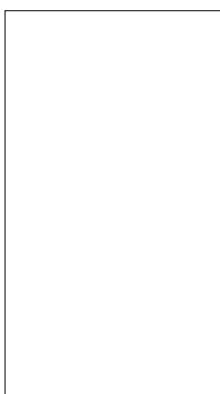

LIVIA

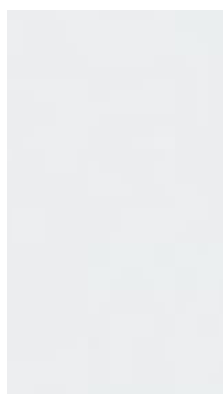

.....

Livia is one of the top front designs of recent seasons. Milled edges allow you to open the cabinets without the need to use additional handles. The simple form will perfectly match the character of your interior. The pattern is made of **19mm thick foiled MDF board**, available in several color versions, which will allow you to create a unique interior in your own style.

WHITE SEMI MATTE

LIGHT GREY MATTE

LIGHT TAIGA

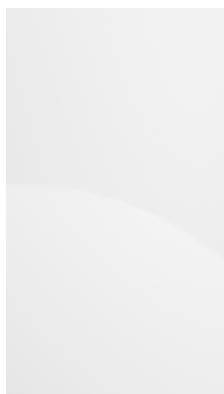

NAVY BLUE MATTE

GAJA

.....

*Gaja is a great solution for people looking for **beautiful, modern kitchen** furniture that will also optically enlarge the space. **Lacquered fronts with a thickness of 19 mm are available in white with a glossy finish.** This solution is not only aesthetic, but also functional. It will undoubtedly be perfect for smaller kitchens but also for those that require more lighting.*

WHITE GLOSS

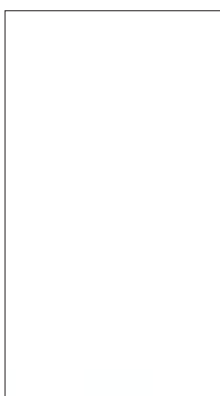

ZOYA

.....

Simple shapes, smooth surfaces undisturbed by handles and universal colors that will fit into any interior style. The fronts of 19 mm MDF boards are covered with PVC foil with a matte finish. Matte white with a very fine pea structure, noble grey with an exceptionally smooth surface or imitation of natural wood with visible cracks will certainly add expression to the interior.

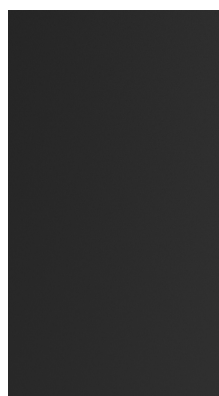

WHITE SEMI MATTE

LIGHT GREY MATTE

HALIFAX OAK

BLACK SEMI MATTE

ADELE

.....

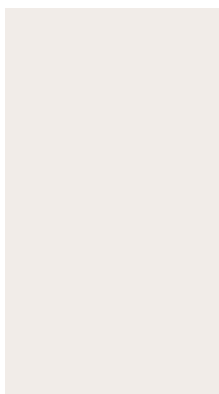

*Adele is a proposition for people who are looking for a classic in a modern version. Perfect finishing of details, fashionable colors and elegant form suits the tastes of even the most demanding customers. Beautifully milled fronts are **made of 19 mm MDF board and covered with PVC foil with a matte finish.** Particularly noteworthy is the inky navy blue with a matte surface, an undisputed hit of current interior design trends.*

TRACY

Tracy is a kitchen inspired by **retro style**, which is characterized by matte, deeply grooved fronts made of foiled MDF board with a thickness of 16 mm. Beautiful cutters are an interesting decorative element that add originality to single-color surfaces.

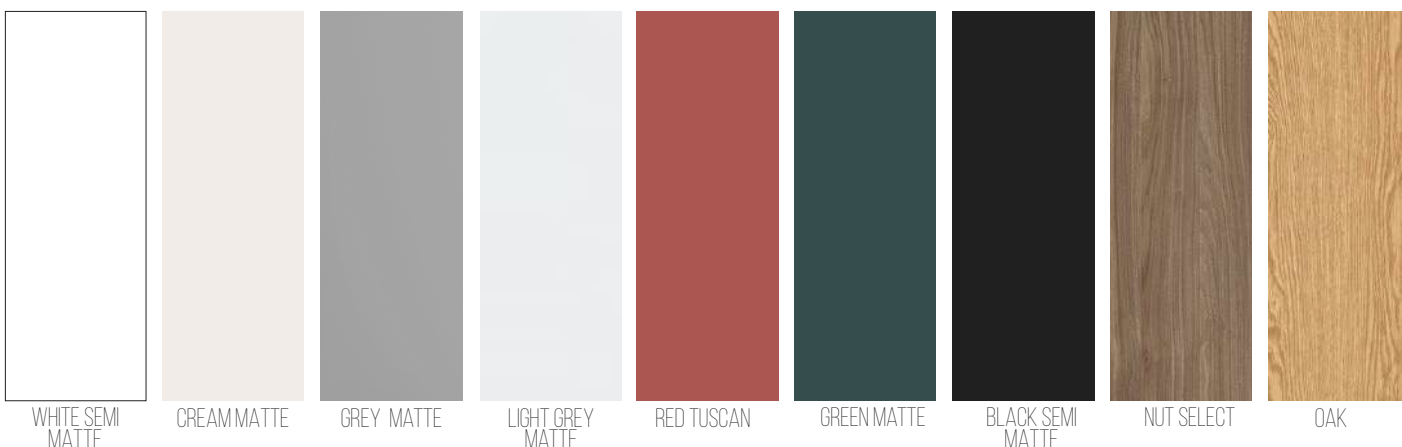

EMILY

.....

A simple, geometric form with a bit of classic flair. Its charm is enhanced by milling, creating a delicate frame pattern around the edge of the front. Seemingly classic, it will easily fit into a modern interior. **The fronts are made of 16mm thick foiled MDF board and are available in a matte finish.** Classic elegance intertwined with a minimalist form delights and offers plenty of arrangement possibilities.

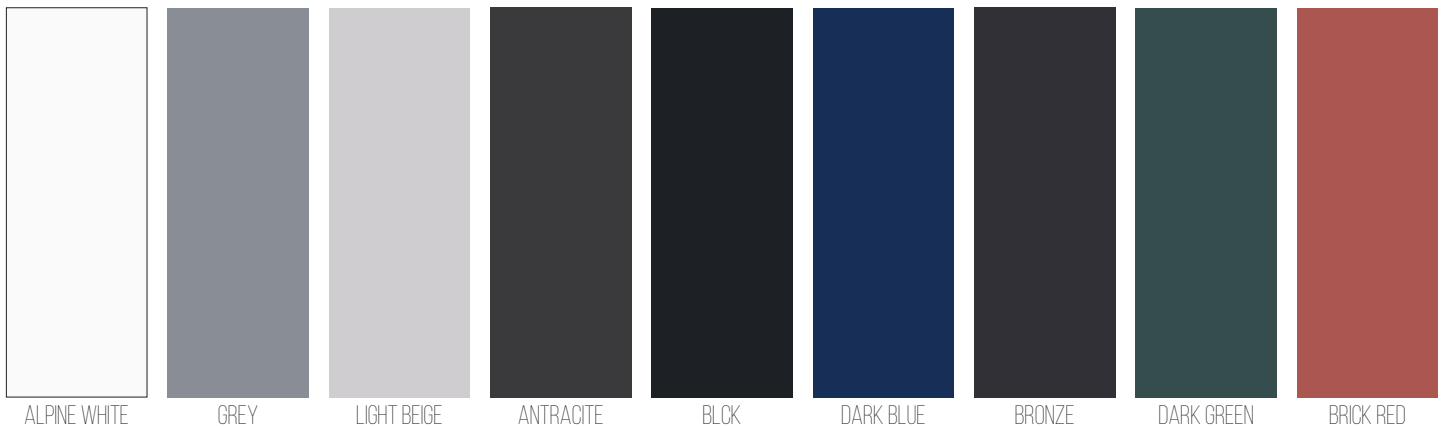

MAX

.....

Max is a proposition for those who want to enjoy **matte fronts with a velvety structure**. 18 mm thick acrylic fronts not only emphasize elegance, but also facilitate daily care. Although Max is based on simplicity of form, this does not mean that there are no possibilities in arrangement. **The availability of various colors gives you the freedom to create unique combinations** that will fit into almost any interior.

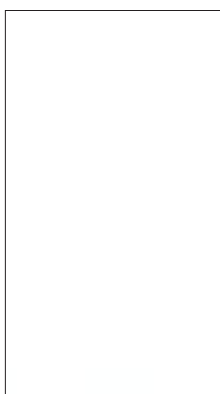

KATE

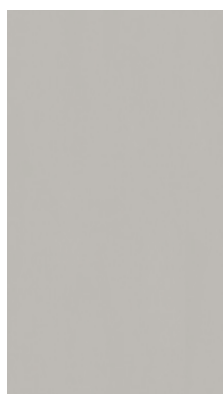

.....

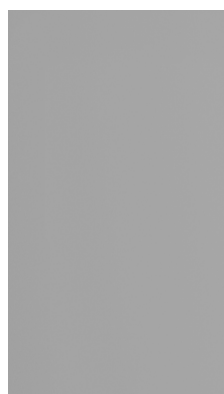

Kate is a **retro-inspired kitchen** with subtly grooved fronts made of 16 mm thick foiled MDF board. Delicate cutters add interesting variety to single-colored surfaces. Fronts are available in subdued, matte colors. **This is a proposition for those who want to combine refined retro aesthetics with functionality and modern style**, creating a kitchen full of character and unique charm.

FOR THE NEED

DIAMENT
meblarstwa
2024

.....
Every kitchen should be functional and comfortable for users.

Thinking about the needs of people with mobility disabilities, we have created a solution that will significantly facilitate work in the kitchen and, on the other hand, will not hinder the functioning of other household members.

We focus on well-thought-out solutions!

The precisely defined height of the oven and dishwasher makes them accessible literally at your fingertips.

The mobile container gives you complete freedom to work at the worktop. Thanks to the possibility of locking the wheels, you are guaranteed that the container will not move during use.

Suspended drawers and free space under them increase the comfort of working at the worktop.

The plinths of the lower cabinets have been raised and moved back to facilitate access with a wheelchair. This makes it much easier to use the spaces above the countertop.

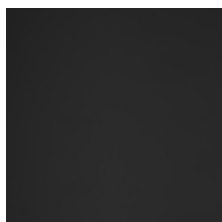

READY-MADE KITCHEN ISLANDS

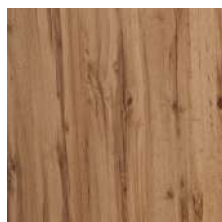

Kitchen islands are **a practical and stylish solution** that not only adds character to the kitchen, but also offers more space for work and storage. This is nothing more than a ready-made set to expand your kitchen world!

Ready-made islands are **available in three sizes and three colors**, which can be combined according to your needs. The possibility of filling the interior of the island with cabinet modules available in the Trend Line and Classic Line furniture collections gives **even more possibilities** to adapt the structure to individual needs.
